- *Provides equipment solutions for a wide-range of industries including: trucking, construction, logging, mining and agriculture*
- *Company offers all-makes solutions for highway truck and trailer components*

**Crystal Lake, Ill. – Nov. 8, 2017 -** [Blanchard Machinery Company](#) is the newest member company to join [Power Heavy Duty](#). Based in West Columbia, South Carolina, Blanchard Machinery Company serves a customer base of medium duty fleets and larger that include school buses, over the road trucks, municipal fleets and construction equipment within the Columbia area.

Blanchard Machinery Company provides equipment solutions for a wide range of industries including: trucking, construction, logging, mining and agriculture. The company offers all-makes solutions for highway truck and trailer components. In addition, Blanchard Machinery Company offers customers parts solutions, drive-in service and a variety of shop services including flywheel resurfacing, driveline and hydraulic hose.

“For 35 years the staff at Blanchard Machinery Company has been committed to providing South Carolina’s capital city with high quality products and services,” said Mark Iasiello, general manager, Power Heavy Duty. “We are pleased to welcome them to the growing family of Power Heavy Duty distributors.”
