**General Information:**

AP Exhaust Technologies manufactures a complete line of automotive, light truck and heavy-duty exhaust, and emissions products including DOCs and DPFs. Founded in 1927, our roots reach back to the very beginnings of the automotive exhaust system business 90 years ago. Today, we continue the tradition of providing high quality mufflers, exhaust pipes, and catalytic converters to our commercial customers, and auto service professionals.

If you are already buying from AP Exhaust Technologies, please notify the Program Manager, Dave Wanhala, [dwanhala@vipar.com](mailto:dwanhala@vipar.com) to help ensure you begin receiving the new program benefits.

Please see the Supplier Programs "Toolbox" on [www.powerheavyduty.net](http://www.powerheavyduty.net) for complete details on AP Exhaust Technologies .
